

Cumulative Project: Elements of Design Slideshow

Student Instructions: Grade 3

For this final project, you will be creating a slideshow of your best photographs from the Focus on Nature Online course on the Elements of Design. Your slideshow should include at least 1 photo for each of the 7 Elements of Design, and your answers to 3 reflection questions.

Follow the steps below to create your slideshow:

- Go through all of the photos you took and edited from the Focus on Nature Online course, and select the photos that best represent each of the 7 Elements of design.
 - Elements of Design: Line, Shape, Form, Space, Texture, Tone, and Colour
- Think about how you might improve your photos. You are welcome to take more photos and edit them to include in your slideshow if you wish.

- Using Google Slides (or another preferred program), create a slideshow of your best photos with at least 1 photo for each Element of Design (3 maximum per element).
- Create a final slide with your answers to the following questions:
 1. What photography tips and tricks did you use to take your photographs? Refer to your photos in the slideshow to give examples (example: SCUFI, Rule of Thirds, changing your perspective)
 2. Which Element of Design is your favourite? Explain why.
 3. How has taking pictures changed the way you see or experience nature?

Slideshow Checklist:

- Title slide including:
 - The title of your slideshow
 - Your name
 - The date
- One slide for each Element of Design.
 - Each slide should identify the Element of Design and include at least 1 photo (3 maximum per element)
- Final slide answering the reflection questions (above)

You may review the slideshow provided by Focus on Nature to use as an example
